

Sprint Backlog v5

CSCC01

Abraham Tsang, Chengli Yang, Vijanthan Thiruchelvarajah, William Rutherford

11/20/2017

Sprint Plan:

Below is a table that shows how we allocated our tasks through our 7 day sprint. i.e A:1 = Abraham worked for 1 story points. 1 story point = 1 hour. Our sprint velocity is currently expected 25 story points/sprint.

Task	Story Points	Dependencies	Day 1 (Nov 13)	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7
3-3(fix)	2	3-1, 3-2	V:1	V:1					
4-2	4				V:2	V:2			
4-3	1	4-1, 4-2					W:1		
UnitTest	4	Feature 1 to 6				W:2	W:2		
ValidationTest	6	Feature 1 to 6					C:2	C:2	C:2
5-1	1	1-2, 2-2						A:1	
5-2	1	4-2, 5-1						A:1	
5-3	1	5-2, 5-3						A:1	
7-1	3						A:2		A:1
7-5	2					C:2			

Sprint Execution Report:

Below is a table that shows how we completed our tasks through our 7 day sprint. i.e V:2 = Vijanthan worked for 2 story points. 1 story point = 1 hour. We burned a total of 22 story points this sprint.

Task	Story Points	Dependencies	Day 1 (Nov 13)	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7
3-3(fix)	2	3-1, 3-2			V:2				
4-2	4					V:2	V:2		
4-3	1	4-1, 4-2					V:1		
UnitTest	4	Feature 1 to 6					W:2	W:2	
ValidationTest	6	Feature 1 to 6						C:2	C:2,V:2
5-1	1	1-2, 2-2							V:1
5-2	1	4-2, 5-1							V:1
5-3	1	5-2, 5-3							V:1
7-1	3								
7-5	2					C:2			

Provisional vs Actual Burndown Chart:

Below is a chart that illustrates how quickly we expect to burn through our tasks for this sprint vs. how quickly we actually did burn through our tasks for this sprint.

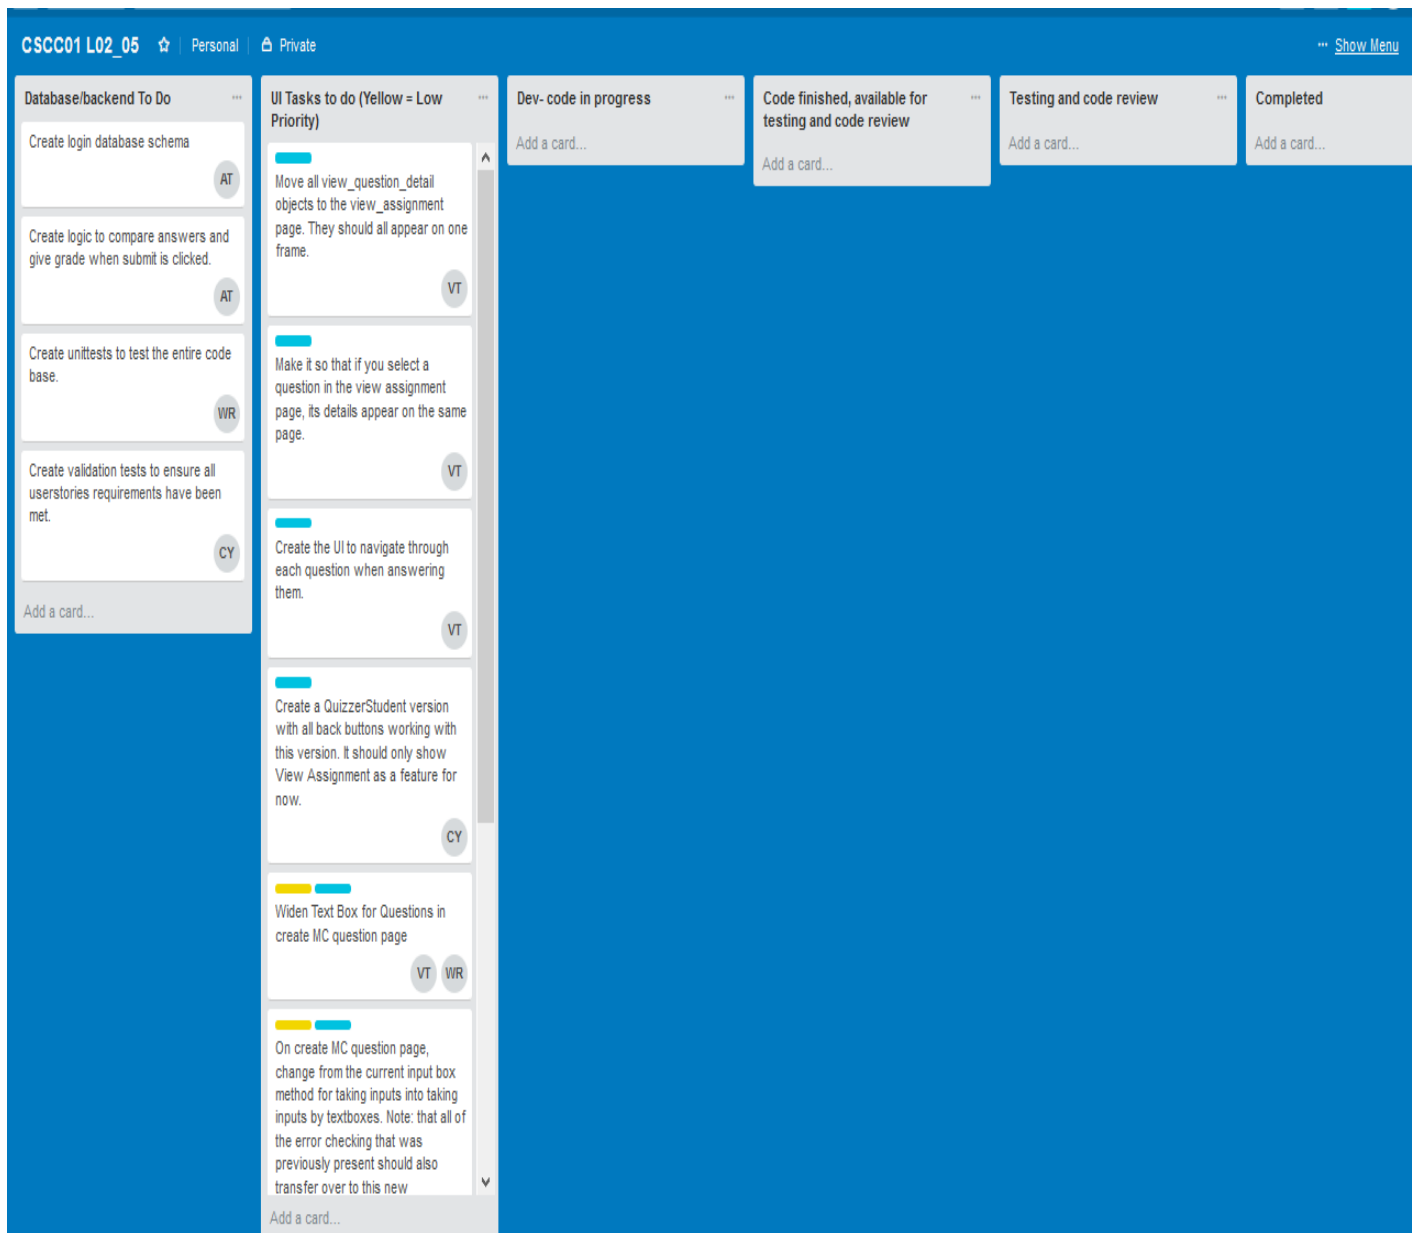

Provisional Burn Chart vs Actual Burndown Chart

Widen Text Box for Questions in create MC question page

VT VVR

On create MC question page, change from the current input box method for taking inputs into taking inputs by textboxes. Note: that all of the error checking that was previously present should also transfer over to this new implementation.

VT VVR

Allow for variable numbers of answers; allow user to create multiple choice questions via textboxes with between 2-6 options.

Completed

Create logic to compare answers and give grade when submit is clicked.

18 Nov

VT

Create validation tests to ensure all userstories requirements have been met.

19 Nov

CY

Create unittests to test the entire code base.

17 Nov

VVR

Move all view_question_detail objects to the view_assignment page. They should all appear on one frame.

14 Nov

VT

Make it so that if you select a question in the view_assignment page, its details appear on the same page.

14 Nov

VT

Create a QuizzerStudent version with all back buttons working with this version. It should only show View Assignment as a feature for now.

16 Nov

CY

Create the UI to navigate through each question when answering them.
